COAST GUARD CATALOG OF FORMS

CHAPTER I - GENERAL INFORMATION

This catalog contains all descriptive data necessary to identify and procure any of the listed forms. Information is presented in columnar format; headings are interpreted as follows.

1. **Office of Primary Responsibility** (OPR)

2. **Title**, the form title is printed beneath and to the right of the form number. OPR is the Headquarters program manager for the form.

3. **Stock Number**. Use **numeric "0"** vs. letter "O". example: (7530-00-F01-1234)

4. **Date of Current Form**. This is a four-character field which specifies the month and year of the form's latest revision.

5. **Unit of Description**. All forms can be considered as sheets of paper; but, modern techniques and definitions make it necessary to broaden the definition to include items beyond the common definition. Accordingly, the following are sample descriptions utilized in this catalog:

   a. **Sheet**. One single sheet of regular paper, printed on one or both sides, varying in size.

   b. **Pad of 25 3-Part Sets**. Twenty-five sets of three part forms each, padded together like a writing tablet by gluing one edge. May or may not be carbon interleaved.

   c. **Pad of 100 Sheets**. A hundred sheets of the same form, not separated into sets, but padded together by gluing one edge. May or may not be carbon interleaved.

   d. **8-Part Carbon Interleaved Set**. Eight identical or similar forms joined together at one edge by a glued tab so that they may be ripped apart for distribution. Sometimes numbered or specifically designed so that each copy has a special designation at the bottom of the form.

e. **Card**. One sheet form of heavy card stock, such as an index card, a post card or poster.

f. **Book**. A series of sheets bound together in a heavy durable cover, such as a log. A form number is assigned for stocking purposes.

g. **Poster**. A printed display of notices characterized by heavy cardboard stock, and large in size. A form number is assigned for stocking and control purposes.

h. **Label**. Printed or pre-addressed blank mailing stickers, gummed on the back. Other varieties are used for identification of items or services.

i. **Tag**. Identity device in the form of a small heavy stock card, usually with a pre-punched hole for attachment to an object.

j **Decal**. Pressure sensitive backing or mac-tac easy peel-off backing; for applying on surfaces.

k. **Folder**. File folder or similar container.

l. **Continuous Feed Forms (CFF)**. Automated Data Processing forms. CFF forms can be single sheets or set forms.

m. **Self-mailers**. Automated Data Processing forms. The self-mailer is pre-printed with constant information; the computer printer adds variable information at processing time. Self-mailers can be single sheets, set forms, or envelopes.

6. **Unit of Issue**. Indicates the smallest quantity of forms which are issued in a single log. Unit of issues used in this catalog are:

EA	Each	**MX**	Thousand (1000)
SE	Set	**HD**	Hundred (100)
BX	Box	**FY**	Fifty (50)
SH	Sheet	**X**	Ten (10)
