COAST GUARD CATALOG OF FORMS

CHAPTER I – GENERAL INFORMATION

This catalog contains all descriptive data necessary to identify and procure any of the listed forms. Information is presented in columnar format; headings are interpreted as follows:

1. **Office of Primary Responsibility** (OPR).

2. **Title.** The form title is printed beneath and to the right of the form number. OPR is the Headquarters program manager for the form.

3. **Stock Number.** Use **numeric "0"** vs. letter "O."

4. **Date of Current Form.** This is a four-character field which specifies the month and year of the form's latest revision.

5. **Unit of Description.** All forms can be considered as sheets of paper. However, modern techniques and definitions make it necessary to broaden the definition to include items beyond the common definition. Accordingly, the following are sample descriptions utilized in this catalog:

   a. **Sheet.** One single sheet of regular paper, printed on one or both sides, varying in size.

   b. **Pad of 25 3-Part Sets.** Twenty-five sets of three-part forms each, padded together like a writing table by gluing one edge. May or may not be carbon interleaved.

   c. **Pad of 100 Sheets.** A hundred sheets of the same form, not separated into sets, but padded together by gluing one edge. May or may not be carbon interleaved.

   d. **8-Part Carbon Interleaved Set.** Eight identical or similar forms joined together at one edge by a glued tab so that they may be ripped apart for distribution. Sometimes numbered or specifically designed so that each copy has a special designation at the bottom of the form.

   e. **Card.** One sheet form of heavy card stock, such as an index card, a post card or poster.

   f. **Book.** A series of sheets bound together in a heavy durable cover, such as a log. A form number is assigned for stocking purposes.

   g. **Poster.** A printed display of notices characterized by heavy cardboard stock, and large in size. A form number is assigned for stocking and control purposes.

   h. **Label.** Printed or pre-addressed blank mailing stickers, gummed on the back. Other varieties are used for identification of items or services.

   i. **Tag.** Identity device in the form of a small heavy stock card, usually with a pre-punched hole for attachment to an object.

j. **Decal.** Pressure sensitive backing or mac-tac easy peel-off backing for applying on surfaces.

k. **Folder.** File folder or similar container.

l. **Continuous Feed Forms (CFF).** Automated Data Processing forms. CFF forms can be single sheets or set forms.

m. **Self-mailers.** Automated Data Processing forms. The self-mailer is pre-printed with constant information. The computer printer adds variable information at processing time. Self-mailers can be singles sheets, set forms, or envelopes.

6. **Unit of Issue.** Indicates the smallest quantity of forms which are issued in a single log. Unit of issue used in this catalog is as follows:

EA	Each	**MX**	Thousand (1000)
SE	Set	**HD**	Hundred (100)
BX	Box	**FY**	Fifty (50)
SH	Sheet	**X**	Ten (10)
PD	Pad	**PG**	Package
CD	Card	**BK**	Book

7. **Stock Point.** *Entries indicate the source of supply for each form listed. The various stock points and their respective addresses are as follows:
